ORGANIZERS

GENERAL CO-CHAIRS

Petr Munster

Tomas Horvath

Kimio Oguchi

IMPORTANT DATES

August 29, 2021

Paper Registration

August 29, 2021

Paper Submission (4 pages max)

October 3, 2021

Notification of Paper Acceptance

October 15, 2021

Submission of Final Papers

CALL FOR PAPERS

A special workshop on security in communication networks focuses not only on improving the security of existing communication networks, but also on their security risks. Security issues and solutions at all layers of the OSI reference model are welcome. The workshop also focuses on optical sensors, both fiber and wireless.

TOPICS FOR SPECIAL SESSION INCLUDE (BUT NOT LIMITED)

- Security and privacy in communication networks;
- Attacks on telecommunications and networking;
- Physical layer security;
- Security protocols;
- Network intrusion detection and prevention;
- Data leakage/loss prevention/protection;
- QKD and quantum-based secure communications;
- Quantum sensing;
- Sensors in broadband networks,
- IoT sensors and actuators;
- Optical fiber sensors;

PUBLICATION OF PAPERS

Papers presented in this session will be sent to **IEEE Xplore Digital Library**. The journal **MDPI Sensors** will publish a special Issue based on papers presented in this session.
